Gonzales Elected President of Mexico at the Recent Election.

The Red Hill Carbonate Discover Leaves Denver in a Hurry.

Remarkable Shooting in New York by a Lady.

An Unusually Large Number of Suicides and Murders.

Denver, August 23.—S. C. Kingsley, a Breckenridge horse thief was arrested here to-day with a stolen horse also Herman Langdorf forger and general thief who has victimized numerous parties in the city.

P. Coleman, the man who started the Red Hill carbonate excitement and obtained several hundred dollars from Denver parties has fled. Warrant for arrest and telegrams have been sent to Kansas City to hold him.

Many Knight Templars returned from the east to-night.

A Times special from Burlingame Kansas says: Wesley Thomas was killed and Wm. Baker mortally wounded by another negro named Thos. Smith last night. A woman was in the case.

Another Times special from Kansas City says: James Thorp a workman in the machine shop shot and killed Fred Perry, a negro, yesterday for attempting to throw stones during an altercation with him yesterday. He was arrested.

Van Hultz Bros., on Saturday night, shot and killed Henry Stack at Pleasant Hill. Stack ordered them out of his store and began firing at them. They have the sympathy of the citizens.

A Times special from Los Pinos agency, Col. dated the 20th says: Indian rumors from the southern Ute Agency arrived this morning and report chief Ouray dangerously ill and not expected to live. They came with a message from Ouray to the agency physician here, Dr. Lucy, in whom he has the utmost confidence, requesting him to come to Quiney. The Dr. and his escort left for Quiney by the mountain trail. The Indians will furnish relays of horses and the doctor intends to make a distance of 120 miles in fifteen hours. Ouray went to that point to assist the commission in prevailing upon the Utes to sign the treaty. If Ouray dies the treaty will never be signed by the White River Utes.

RIVER PIRATES.

St. Louis, August 23.—Telegrams received to-night from F. W. Bedard captain of the wrecking boat T. T. Eckart, are to the effect that the excitement is still high among the friends of the thieves who attempted to plunder the Vicksburg, and that the sheriff did not seem able to maintain peace. H. A. Burris and Wm. Howard, divers of the Eckhart, and Jas. Jones, one of the crew, were still under guard on shore, and Captain Bedard remained under surveillance on the boat. The mob would not allow the Eckhart to be moved, nor would they permit the wrecking of the Vicksburg to proceed. Captain Dugan, superintendent of the Underwriters wrecking company, Captain Barnard, secretary of the board of marine underwriters, and Captain Scudder, president of the St. Louis & Vicksburg Packet company, owners of the sunken Vicksburg, telegraphed to-night to Gov. Marks, of Tennessee, asking for military or other aid to protect their men and property. Fears were entertained that the mob would lynch Burris, Howard and Jones, or at least Burris, who, they assert, shot the man who fell overboard from their skiff.

WASHINGTON, August 22.—The general of the army received to-day the following telegram:

PRESIDENT OF SAN FRANCISCO, August 18. To General Sherman:

The following has just been received from the commanding officer of the department of Arizona, dated August 16th:

It was reported that a small party crossed the Sonora line from Tucson on the 9th instant, some twenty-two

in number. They left Tucson on the 5th instant, but the military were not informed of it till the 7th. Captain Whiteside pursued them, but too late to overtake them. On the 14th I addressed a letter to the United States marshal, suggesting the business of discovering and arresting such small parties as he could, and offering to give him assistance wherever resistance might be expected.

This morning Marshal Duke and his deputy, Evans, of Tucson, came to see me, and the following order to Col. Carr is the result:

Marqueze was last heard from at Maxatlin and is expected back in Arizona. Papers and proofs are reported almost ready in the marshal's hands in his case and they will be ready to arrest him when he comes, the U. S. marshal having taken upon himself the detection and arrest of small parties accused of violating the neutrality laws. He desired some aid, which you will furnish in small numbers, from time to time, from the most convenient post.

This order was given under the original instructions of the department commander to prevent the violation of neutrality laws and to arrest Marqueze if found to have violated these laws. In cases of large parties, from whom resistance might be expected, you will proceed against them with requisite force and take the United States marshal along with the proper papers to hold and prosecute them under the civil laws. Please co-operate fully with the civil authorities. [Signed] IRWIN McDOWELL, Major General.

Chicago, August 23.—The bodies of Simon Zimmerman and wife were found at 6:30 this evening at their residence, 210 Clayburne avenue, with bullet holes in their heads, which had evidently been made by the husband, as appears by statements of neighbors early this morning. The two children three and one years of age, remained in the room all day with the bodies, and were discovered to-night by a brother who lives in the house and works nights and sleeps days. He had been unable to arouse them when he returned from his work this morning and retired believing them to be asleep. No cause for the act is known their marital life having been ordinarily happy. Zimmerman was working in the Chicago electric works.

City of Mexico, August 14.—Gonzales has an absolute majority. Congress has nothing to do but to declare the result. It is expected that Gov. Cadena will pronounce against the result on the ground of fraud. He is Governor of Zootiaos and has a well armed and organized body of state troops. The government is watching him with considerable forces at San Louis and other convenient points with Gen. Gonzales in command. President Diaz gave a dinner to Minister Morgan; all foreign ministers and consuls with their wives attended, also cabinet minister.

Chicago, August 23.—The Inter-Oceans special says that both the Northwestern and Milwaukee & St. Paul railroads have now received permission from the Indians to lay track through their reservation in the Black Hills; in the race for that section there will be some of the fiercest track laying ever witnessed. The Interior department has been loth to allow railroads to run through the Indian country, for experience has shown that the railroads tend to make the Indians beggars, where they have been thrifty and good citizens.

CORONER'S INQUIRY.

Philadelphia, Pa., August 23.—In the coroner's inquiry to-day into the recent railroad disaster at May's Landing two Atlantic City policemen testified that the difference in time between the departure of the two trains did not exceed one minute. The foreman of the engines stated that if the throttle valve had been closed, steam would not have escaped. He examined the wheels of the engine and cars, but failed to discover any flat surface on the wheels, which no doubt would have exhibited itself if the train slid any distance.

New York, August 23.—The World describes the shooting by Dr. Ruth and wife as follows: Mrs. Ruth began with a pistol to shoot glass balls, and they were shattered in almost every case; with the pistol held sideways there was a miss or two, but

generally every shot told. When the pistol was inverted and aim taken below instead of above the line of fire, there was no apparent loss of percentage in the hits; when the ball was hung by a string and set swinging, Mrs. Ruth stood eighteen yards off and made a clean break on her first shot.

New York, August 23.—The Evening Post says that a special telegram has been sent to New York from San Francisco, to the effect that private advices from the Comstock mines, from eminent and worthy sources, indicate good prospects. For the entire length of the great lode the ore is more highly favorable than it has been for years, and all expect the period of depression which has passed to give way to an era of sound prosperity.

Reading, Pa., August 23.—A great sensation has been caused throughout Berks county by the discovery of Benj. Zeechler, a lunatic, who has been confined in a house in Albany township by his brother Jacob Zeechler for twenty-seven years. He was chained to the floor in a small house built especially for him, and in a room about eight feet square, with only one window for ventilation.

CHURCH APPOINTMENTS.

Rome, Italy, August 23.—At the consistory to-morrow, the pope will announce the following appointments: C. Mangue, Virginia City, Nevada, bishop in portibus with a further succession to Bishop O'Connell, Grass Valley, Cal.; John A. Waterson, bishop of Columbus, Ohio; Rev. Mr. Iterss bishop in portibus with a succession to the arch-bishop and vicar apostolic of Lower California, James Laird Patterson, bishop in portibus.

London, August 23.—At to-day's wool sales the rates were firm. Merino was rather against buyers. Four thousand and six hundred bales were sold, comprising Port Phillip, New Zealand, Sydney and Cape, in about equal portions.

London, August 23.—Samuel Plesell, a liberal, has offered to resign his seat in the parliament for Dr. Boy in favor of Sir Wm. Harcourt. Plesell's supporters decided to recommend the acceptance of his offer.

Washington, August 23.—Postmaster General Maynard will enter upon his duties to-morrow. Hon. Grawbridge, commissioner of Indian affairs, who has been ill for some time will, if able, leave for his home in Michigan to-morrow.

Miss Neilson's Death.

The death of Miss Lillian Adelaide Neilson, in Paris, at the Continental hotel, yesterday, although unexpected just at that time, causes no surprise to those who have been acquainted with her exceedingly delicate health for a long time past. It seems paradoxical to speak of the delicate health of a woman whose almost incredible labor, night after night, on the stage has just roused plaudits the echo of which has scarcely died out of our ears, but it is none the less true that she was and knew herself to be, on the verge of the grave during the whole of her last, magnificent successful tour in this country. Still the chance of life for many years to come, of which the physicians gave her hope gave her and her friends occasion to look forward to the future with the happiest expectations, and her sudden death, although not calling forth astonishment, comes as a shock to our sense of the fitness of things—that so charming an embodiment of feminine loveliness and a very high grade of historic talent, should be blotted out in the heyday of fame and fortune.

The facts of Miss Neilson's life are familiar, as they have been rehearsed again and again, and her performances of Shakespeare's and others' heroines are still fresh in the recollection. The New York public can never cease to regret that she did not permit them to see her latest effort in illustrating the greatest of dramatists and include the whole of "Measure for Measure" in her last engagements at Booth's. As it is, the memory which she leaves in peculiarly sweet, and she has been allowed the privilege for which many have prayed—she has died in the zenith of her fame, while her future was promising even greater things than her past had shown.—Evening Mail.
